

# Ever wondered what happens to your waste after you've put it in the bin?

## The Walkway

Why not take the opportunity to see first-hand what happens to rubbish and recycling thrown away by Lancashire and Blackpool households?

Here at Farington Waste Recovery Park we offer community groups **FREE** guided tours along our enclosed walkway. You can see the sorting machines of one of the most advanced waste recovery facilities in the world safely through glass windows, without the need for hard hats or other protective clothing.
